BZ01	Internship	Instructors from Division of Forest and Biomaterials Science	1	Year-long	
BZ02	Internship in wood structure	Hiroshi ISODA, Takafumi NAKAGAWA	4	Year-long	
BZ00	Master's Thesis				

Requirements by Division of Forest and Biomaterials Science

- 1) Earn at least 30 credits including 8 credits by seminars and 10 credits by laboratory works given by your laboratory.
- 2) In order to take other laboratories' seminars or special laboratory works, get permission from your supervisor and the instructor.
- 3) In order to take other divisions' courses and earn credits, get permission from your division's office at the time of registration.
- 4) Retaking subjects you have previously completed is not permitted, even if it is an intensive course with a different instructor in a different year. The only exception is retaking Seminars and Laboratory Works of your own laboratory.
- 5) Subjects with "☆★" marks" are held every 2 years alternately.
Subjects with "★" marks" are held in this academic year and those with "★" marks" in the next academic year.
- 6) Subjects with "◎" marks" may be given in English when any of international students wish to attend.
- 7) Subjects with "▲" marks" consist of 8 lectures.
- 8) If you enroll in April and aim to complete the course in March, register for the "Master's Thesis" during your 2nd (fall) semester as a M2 student. / If you enroll in October and aim to complete the course in September, register for the "Master's Thesis" during your 1st (spring) semester as a M2 student.
