

2.4 APPLIED BIOSCIENCES

1. Outline of the Division

The Division of Applied Biosciences was created in 1996 to consolidate the three divisions of Agricultural Biology (founded in 1953), Fisheries Science (1953), Animal Science (1976) and two research laboratories from Division of Tropical Agriculture (1981).

The division is conducting the research and education on the subjects aiming at the efficient utilization, conservation and creation of species for a variety of living organisms including microorganisms, plants, animals and fishes living in land and sea from the molecular to population levels.

2. Number of students

Master's Program 1st	53 名
Master's Program 2nd	57 名
Doctor's Program	57 名
